Final Project Milestone 1

7/24/2016

The Painter_GOLF Database will give hotels a lucrative way of bringing customers to their hotels. Guests can schedule and book everything from the hotel they are staying at. The guests entire bill will be included in their hotel bill making it a one-time pay process when guest check out of their hotel room. Hotels will have to schedule and use their own credit card to reserve the tee times for each Golf Course. The Business Rules are as follows:

- Reservation of a T-Time Requires a month in advance of time before booking the hotel Room.
- If a guest reserves a tee time, there is 25% of tee time down payment.
- If they cancel the appointment at any time they lose the down Payment.
- If they cancel the reservation less than 2 weeks in advance they will be charged 25% of the full charge.
- If they cancel the reservation less than 1 week in advance they will be charged 50% of the full charge.
- If they cancel the reservation less than 24 hours or do not show they will be charged full price.
- Some Golf Courses have a dress code. If they have a dress code and they are not wearing appropriate attire they have a 30 minutes to change attire. If they do not return they pay the full charge of the Tee Time.
- They can add a Caddy to the tee time but a 20% charge of the T-Time will be added to the quoted rate for tip
